STATINTL

SUBJECT: Contract TA-3034  
Our Gen. Order AAD-30465-AA  
Final Invention and Royalty  
Report

-----

Dear Joe:

STATINTL

"Under the provisions of the Patent Rights Article of the subject contract, Contractor hereby reports that to the best of his information and belief, the only Subject Inventions conceived or first reduced to practice in the performance of this contract was [REDACTED] Jr. Disclosure 38,132. A copy of the disclosure was furnished with our Interim Invention Report, our letter dated December 23, 1958. We also informed you that it was not the intention of Contractor to file a patent application on the disclosure.

Under the Royalty Reporting Article of the subject contract, a letter dated 30 August 1955 from the Headquarters of the Department of the Navy is submitted in lieu of the royalty report. A Department of the Navy 3 May 1957 letter indicating that our report for the year 1956 was received is also attached.

To the best of our knowledge, no subcontract has been issued for \$3,000 or more which included payment for experimental, developmental or research work under the contract.

It is believed that the foregoing discharges Contractor's invention and royalty reporting obligations under this contract."

Sincerely,

STATINTL
